

## **Metabo - work. don't play.**

This promise applies not only to new tools but also to our used models. "Minimum downtime" - that is the objective to which we are committed. It means that our customers receive a power tool that is in good electrical and mechanical condition within the shortest possible time - with a full 90 day warranty.

And, of course, the most important spare parts for all our popular tools are ready for delivery from our warehouse. And this applies not only in Germany but also on the most important markets around the world. To the satisfaction of our customers worldwide.
